

RCFTS NEWS

This is the sixth issue of the *RCFTS NEWS*. We hope that it is helpful, informative and of interest to you. If you have any comments or suggestions please feel free to express them to any of the Review Board Members. Please make sure that everyone who works with RCFTS in your State gets a copy of this newsletter. We only send out the newsletter to the Coordinators listed on the RCFTS Coordinators List.

The newsletter and the coordinator's list will soon be available from the internet at <http://www.usda.gov/rus/water/rcfts.htm>.

RFA UPDATES

RFAS THAT HAVE RECENTLY BEEN IMPLEMENTED:

1. The BI55 "Facility" screen has been modified to track compliance reviews. The date the compliance review is due should be entered in the due date field. Once the compliance review has been accomplished, enter that date in the appropriate field.
2. Report CP03, 'Unliquidated Obligation Report', has been corrected. You are now able to enter a 405 status code on the parameter screen for this report. This was the only change made at this time.

We have had inquiries about guaranteed loans not showing up on this report. They should not show up on this report because they are never liquidated (unless the loan goes delinquent or defaults). Therefore, it is not an unliquidated amount that needs to be monitored like the grant and direct loan amounts.

ALSO, THERE ARE PROBLEMS WITH ALL LOAN/GRANT COMBINATION ACCOUNTING INFORMATION DOWNLOADING FROM PLAS. IT SEEMS TO BE AFFECTING ALL WW AND CP LOAN/GRANT COMBINATIONS. THIS ISSUE IS BEING WORKED ON. But please note that this will affect several screens and reports. (ie. The obligation date is not downloading to the Status Summary Screen. The unliquidated amount is not downloaded to the Funding & Cost Information Screen.)

From time-to-time we have received individual cases where the unliquidated loan or grant amount was not zeroed out on the Funding & Cost Information Screen. This causes the obligation to erroneously appear on the CP03 Report. The majority of these requests have recently been corrected. If you have loans or grants that are erroneously showing an unliquidated amount please call Robin.

If there are any other problems with the CP03 report please let us know.

3. Report Codes 536-B & 536-D are for discrepancies between RCFTS and PLAS for guaranteed loans. This report has been corrected to reflect loans in RCFTS that do not show in PLAS and loans that are in PLAS that are not in RCFTS.

Distribution of this report had been halted until it was corrected. You should soon be getting these reports in your office. If you can't figure out why a loan shows up on the report, please verify that the loan number and case number match in both systems. If you have any questions on how to correct these discrepancies please call us.

4. Last newsletter we mentioned that the 131 status codes had been added to the CPN01 'National Office Preapplication/ Application Report and the CP11 preapplication report. But the 151 status code was also added to the program, which erroneously reported the backlog for the WW and CP.

The 151 status code has been taken out of the programming for these reports and they should now be running correctly.

5. We had received several reports about hidden fields in RCFTS that were only showing up when you did screen prints. This was corrected and you should not have the hidden fields showing up on your screen prints anymore.

Also, the RUR IND ASST field that appeared on the CP08 screen has been removed.

6. Tracking information for the Rural Business Opportunity Grants (RBOG). The new Type of Assistance Code 159 should be used and the new purpose of funds code C (Technical Assistance) should also be put on all requests. Like all BP grant programs, RBOG's will be tracked on the CP side of RCFTS.

7. There has been a minor change to the CP14 'WW Subsidiary Tracking' screen. As loan and grant amounts have increased past the previous \$9,999,999 we have had a problem with the information downloading to this screen. Since PLAS still limits the amount of loan to \$9,999,999 per obligation this change will probably only benefit the large guaranteed loans. The loan amount field has been increased by 1 digit. This will allow for tracking loan obligations up to \$99,999,999.

If you have had an obligation that fits in this category but were unable to track it on the subsidiary screen please update RCFTS.

* * * * *

NEW MANAGEMENT SYSTEM CARD – COMMUNITY PROGRAMS

If you have ordered new management cards recently or compliance review forms you will find a new categorization of racial breakout. The categories now are:

White
Native Hawaiian or other Pacific Islander
Black or African American
Hispanic or Latino
Asian
Amer. Ind/Alaskan Nat.

We are in the process of writing an RFA to change the categories in RCFTS to reflect these new breakouts on Screen CP05 'Facility Part 1'. There are other changes on the management card including the omission of the obligation date. The corrections are also being worked on and a new revision of the management card will be coming out. Until this is revised you may type in OBLIGATION between APPL RECD and Interim FINAN.

PROPOSED RCFTS MEETINGS/TRAINING

Below is the **TENTATIVE** schedule for an RCFTS Coordinators Meeting and Basic RCFTS training. Training has been proposed and dates have not been finalized. We wanted to let you know what was being planned for the year. All training costs will be the expense of the state again this year.

The Coordinator's Meeting/Seminar is set for the week of April 12-16. It will probably be a 2-3 day session as it was two years ago.

The Basic Training is proposed for the week of May 17-21. We plan to have two CP/WW Basic sessions running consecutively. There is also a Basic BP Training scheduled to run concurrently with one of the CP/WW sessions. The BP and CP/WW training's were scheduled for the same week to help those individuals that work all program areas and would need to have both training's.

GRADUATION REPORTS

Last quarter the CPN04 and the CP09 graduation reports were turned over with new changes. There were many errors in the programming making these reports unusable. Since that time an AD HOC report has been completed to determine the goals and a list of borrowers to review for this FY.

Andrea Barnett and Deanna Plauce' sent out a hard copy of these reports for CP and WW respectively. You should have received these already. If not, call Deanna (202-720-9635) or Andrea.

We know there has been a lot of confusion regarding the graduation goals and these reports. Since we have sent out so many letters from WW and CF we would like to clarify a few issues that you may still be confused about.

1. CF and WW are both counting the number of LOANS that you graduate towards your goal for the year. CF is also using the number of LOANS to determine the national goal as well. CF does not have that many loans per borrower (as compared to WW) and therefore, did not feel by looking at loans for the goal that it would raise the goal to an unfair level. However, WW based their goals for each State by the number of borrowers. This was done because there are so many loans per borrower and this would raise the goal for each state to possibly an outrageous level. See the below examples for further explanation:

CF – Your State has 15 Borrowers and 18 Loans. The goal is 7 percent of the 18 Loans which is about 1. So in this case you would only have to graduate 1 LOAN to meet your goal.

WW – Your State has 20 borrowers and 38 Loans. The goal is 7 percent of the 20 BORROWERS which is about 1. So in this case you would only have to graduate 1 LOAN to meet your goal.
2. Your graduation reports should be run at the beginning of each fiscal year (October 1). The report gives you a list for the calendar year but you have the fiscal year to do your actual reviews.

ARC's

As mentioned in newsletter Number 3 there are 3 different type of assistance codes (TOA's) as well as 3 different SIC codes for tracking Appalachian Regional Commission grants in RCFTS. They are as follows:

| | SIC | TOA/RCF | TOA/PLAS |
|----|------|---------|----------|
| BP | 0007 | 258 | 085 |
| CF | 0004 | 097 | 097 |
| WW | 0005 | 085 | 085 |

To date, we have not asked the states to go back and update RCFTS so that all ARC's are reflected properly. We will not be sending out a formal letter at this time to require this to be done but it is suggested that those states that have ARC's verify the accuracy of the SIC and TOA codes. This will assist in providing accurate historical data. If you have any questions, you can call Andrea or Robin

EMPOWERMENT ZONES/ENTERPRISE COMMUNITIES

This is clarification regarding the note in the last newsletter. It was brought to our attention that on screen CP08 "Funding and User Information", under the Fund Authorization there are actually two applicable codes (Z,C). So let's try this explanation one more time.

Any funding which is going into an EZ/EC/CC zone should have the EZ/EC code field completed. The Name and Year of Designation will automatically be generated. This applies to funding from the EZ/EC pot or from the state's regular loan or grant monies. This field was designed to report all funding that is going into designated areas.

A question has been raised regarding the tracking of a borrower who is not physically located in a designated EZ/EC/CC zone, but may potentially provide assistance to ultimate recipients who are located in a designated zone (ie. IRP's or RBEG's [revolving loan fund]). In this instance, use the following rule. If a determination is made that 75% of the funds will be used within the zone or community, the borrower should be considered as being in an EZ/EC/CC zone and the EZ/EC CODE field in RCFTS should be coded accordingly. If it is determined that less than 75% of the funds will be used within the zone or community, the borrower will not be considered an EZ/EC/CC. In that case, no tracking code will be entered into RCFTS.

In addition, if the funding is coming from one of the designated EZ/EC pots of money (ie. Type of Assistance Code: 162, 163, 164, 165, 166, 167, 168, 169, 170, 142, 243, 242, 250, 272, 145), the FUND AUTH field on the same screen should be completed. If the funding is going into a Zone then the FUND AUTH code 'Z' should be used or if the money is going into a Community the FUND AUTH code 'C' should be used. The help

screen has been updated to reflect this code. You may want to write this in your User's Guide for future reference.

RBS COLUMN

If you have any questions, please contact Sylvia Neal at 202-720-2811.

RHS COLUMN

WE HAVE A NEW TYPE OF ASSISTANCE CODE (TOA):

CF EZ/EC COMBINATION (GUARANTEED LOAN/GRANT) = 272

Please use the above TOA code for the guaranteed loan and grant record IN RCFTS ONLY. This new code is for EZ/EC guaranteed and grant combinations only. Use Fund Code 97 for the guaranteed loan/grant record in RCFTS. Attached is a revised page (A-5) from Appendix A to include this new TOA to the CF program area.

For obligating in PLAS (also in GLS soon) you will use a TOA of 273 for the guaranteed portion of an EZ/EC combination project and use a TOA of 272 for the grant portion. Notice the difference between the accounting systems and RCFTS when entering in these codes.

*** DAY CARE PROJECTS ***

Day care centers are becoming more and more a high priority. You know what that means – MORE REPORTS!! Please take the time to fill in the “no. of units” field on screen CP09, “Funding and User Information (Part 2).” This field for day care centers is the number of students (children) that the facility can hold. We use this field to help us determine the number of children being served. So start fiscal year 1999 right by entering this information into RCFTS. The more information that you enter into the system, the less time you will spend with the National Office on the phone and/or going through files for the information. THANKS!!

*** PERFORMANCE MEASURES ***

All CF SIC codes (except ARC's) generate a UNIT TYPE CODE. Therefore, it is important to fill-in the NO. OF UNITS for each CF loan/grant request. This information is extremely important to reporting our performance within Community Facilities.

**** CF GRANT ISSUES ****

There is still confusion about how to enter a CF grant into RCFTS. The biggest issue has to do with what SIC code to use. Remember, it is the same as a CF loan – you just enter what type of facility it is. THERE IS NO SPECIFIC SIC CODE FOR A CF GRANT (like there is the RBEG, etc.).

Just a note that the new NAIC's codes are being worked on. As soon as the changes have been made to RCFTS to accept the new 4-6 digit codes we will distribute a list of all the NAIC's codes.

If you have any questions, please contact Andrea Barnett at 202-720-0487.

RuS COLUMN

SWM's/TAT's

I have been receiving several calls regarding the tracking of Solid Waste Management and Technical Assistance and Training grants in RCFTS. Again this is an area where we have not dictated that they need to be tracked. But we have found it very useful recently to have that information available. Now that we are easily able to run reports by TOA we can distinguish between SWM grants and regular WW grant money.

As you know it also has been discussed that servicing of the SWM's might be moved to field offices. If this is done, you will need to begin tracking them at that time. Therefore, we are requesting field offices to begin tracking SWM's in RCFTS now. At this time, tracking of TAT's will still be optional.

If you have any problems or, please call Robin or email at: rpulkin@urdev.usda.gov.

REMEMBER !

Q & A

If you have questions, problems or helpful suggestions please notify a RCFTS System Review Board Member. Your input could be an invaluable help.
